

PUBLIC SERVICE COMMISSION OF MONTANA

01/01/12

ENERGY WEST Montana

Tariff No. 05, Schedule NCS, Sheet 01, Release 84
Canceling Sheet No. 00.5, Release 83

Negotiated Contract (NCS)

This tariff is available to Malmstrom Air Force Base, and all other existing or potential customers who can demonstrate a credible opportunity to bypass the Energy West distribution system if connected under a standard tariff. Rates under the negotiated contract tariff must be set to recover the marginal cost of service, and to recover at least 90% of the estimated cost to bypass as determined by the Commission. Negotiated contracts will specify rates paid for distribution services, transport services, and all other services. All negotiated contracts will be filed with the Commission. Upon application to change rates in a general rate case, the utility will file with its application sufficient cost of service information for the Commission to evaluate each negotiated contract customer.

A late charge of one percent (1%) per month on commercial accounts thirty days past due subject to the conditions stated in the Finding of Fact 38 in Order #5153a.

If a customer terminates service and subsequently requests renewal of service at the same address, the Company may charge the customer the monthly fixed charges not paid during the time of termination. Fixed charges can only be recovered from customers who terminate and renew service at the same address where no other customer has taken service in the interim at the address. Rates for all tariffs are based on continuing service and collection of monthly fixed charges at each service location.
